Associate Software Engineer

Despre mine

I have obtained most of my development experience through university courses and watching videos on YouTube, where I could apply the theory, I learned by practising. However, I have not had the opportunity to delve deeper into specific areas, which has limited the scope of my programming skills to a basic level. Nevertheless, I have focused on some areas in greater depth, specifically Web Development, with a particular emphasis on React, through YouTube tutorials.

HTML, CSS, Javascript, React.

Java, Apex, C#.

HPSM - ticketing system.

Voluntar - VP Corporate Relations · BEST Chisinau · Chişinău

Noiembrie 2018 - Iulie 2022 · 3 ani 8 luni

During my time in the organization, I was heavily focused on securing funding for events that were organized by the organization.

I served as the Vice President for Corporate Relations during the academic year 2019-2020 and was responsible for overseeing and managing the team within my department.

My prolonged involvement in the organization has given me valuable experience in communication, teamwork, facilitating, and presenting, as well as creating budgets and utilizing Gantt Charts.
