Was awarded by bronze medal on international informatics project competition, "Infomatrix 2011" and silver medal on "Infomatrix 2012".

There are plenty of institutions which forms behavior of society on macro (behavior of society) and micro (body language) levels, and each institution has its own characteristics. Understanding of basic institutions could help you to predict in which direction will move behavior of society and as a result, achieving desirable outcome. I'm obsessed with psychology on both micro and macro levels.

Event organizer and translator (Russian / Turkish / English) · Embassy of Moldova · Ankara

Septembrie 2015 - Iunie 2017 · 1 an 10 luni

Actually I wasn't employee of the embassy, but it provided some part-time job in case of some events. Moldovan government has lots of trading agreements with its Turkish counterparts, so I decided to take part in annual forums as a volunteer to get an

experience and feel that pressure of stressful work conditions with politicians and businessmen from both sides. This job gave me opportunity to develop my Turkish language and experience of solving problems in short period of time.

Assistant of the regional guide · Consul Travel Service · Antalya

Iunie 2014 - Septembrie 2015 · 1 an 4 luni

Actually, I started this work as a transferman staying in that position for two weeks, before I was qualified to the hotel guide and three weeks later I was promoted to assistant of the regional guide. My task was to optimize costs and time of transferring tourist from airport to hotel, and selling excursions. This work was very important to me personally, because thanks to it I've developed in myself the qualities that were useful in later life. I had great experience working within team, understanding psychology of the people and management.
