Engineer, Manager, TL, PM

About me

I am a versatile and results-driven Engineer with proven expertise across the entire software development lifecycle—from architecture and coding to deployment and optimization. I combine strong technical proficiency in modern web technologies with strategic leadership and cross-functional collaboration to deliver scalable, high-performing digital products. With a solid background in cloud infrastructure, DevOps, and agile project management, I consistently drive innovation and business value through technology.

Work experience

ENGINEERING MANAGER · NDA · Chişinău

June 2024 - May 2025 · 11 months

- Led high-performing, cross-functional engineering teams with a strong focus on collaboration, ownership, and continuous learning—creating an environment where people could do their best work.
- Invested in team growth and engagement through regular one-on-ones, performance coaching, and mentorship, aligning individual aspirations with company goals.
- Delivered complex, full-stack software solutions that met business needs, exceeded user expectations, and were shipped on time and within scope.
- Turned strategic product and marketing goals into clear technical roadmaps, ensuring the team stayed focused on what matters most.
- Championed the adoption of modern technologies and best practices, raising the bar for quality, maintainability, and performance across our systems.
- Built a strong engineering culture grounded in code quality, testing, and scalability, ensuring our stack could support rapid growth without compromise.
- Collaborated deeply with product, design, and marketing partners to align technical delivery with business value—breaking silos and boosting impact.
- Provided architectural leadership on both frontend and backend systems, helping the team make smart, scalable decisions for the long term.
- Streamlined development processes with Agile and iterative

BACKEND ENGINEER · Spark Solutions SRL · Chişinău

December 2021 - May 2024 · 2 years 6 months

- Developed a cutting-edge fintech application for one of Germany's top insurance providers, focusing on performance, reliability, and scalability.

- Designed and implemented backend solutions by analyzing complex technical requirements and identifying optimal hardware and software architectures.

- Enhanced and maintained core application features through clean, efficient code and thorough testing, ensuring high code quality and system stability.

- Actively participated in code reviews and knowledge-sharing sessions, promoting best practices and continuous team improvement.

- Worked hands-on with modern development tools and processes, including version control, CI/CD pipelines, and automated testing frameworks.

- Collaborated closely with cross-functional teams to align technical solutions with business goals, ensuring timely and effective delivery.

- Led the integration of cloud services to improve application scalability and reduce operational costs.

- Mentored junior developers, fostering skill development and strengthening team capabilities.

Skills: Vue, ReactJS, DevOps, Kubernetes, VCS, Docker, TypeScript, NodeJS, Redis

DIGITAL STRATEGY MANAGER · Nanox · Chişinău

April 2022 - September 2023 · 1 year 6 months

- Led strategic initiatives across multidisciplinary teams to deliver end-to-end e-commerce solutions aligned with business goals and market demands.

- Developed and executed data-driven digital strategies to drive online sales, increase customer engagement, and support overall business growth.

- Optimized digital platforms for performance, reliability, and user experience, including error resolution, hardware

adaptability, and interface enhancements.

- Leveraged expertise in digital marketing channels, including social media, email marketing, and paid advertising, to improve brand visibility and boost conversion rates.
- Utilized deep knowledge of content management systems (CMS) and SEO best practices to increase website traffic, enhance search rankings, and grow organic reach.
- Collaborated with technical and creative teams to ensure cohesive execution of digital campaigns, user experiences, and product positioning.

Skills: Marketing, Leadership, Project Management, MySQL, PHP, OpenCart

TECHNICAL SUPORT ENGINEER · Orange Moldova SA · Chişinău

April 2018 - November 2021 · 3 years 8 months

- Analyzed and identified the most suitable hardware and software solutions to meet client and business needs efficiently.
- Diagnosed and resolved technical issues across systems and applications, ensuring minimal downtime and high user satisfaction.
- Implemented targeted fixes and performance enhancements to improve system stability, reliability, and responsiveness.
- Troubleshoot and resolved network connectivity issues, maintaining seamless communication and uninterrupted access to services.
- Provided professional, client-focused support, quickly identifying root causes and delivering clear, tailored solutions to end-users.

Skills: Problem Solving, Communication Skills

PRODUCT OWNER · AntrenorMD · Chişinău

March 2018 - July 2019 · 1 year 5 months

- Provided strategic direction and ownership over e-commerce initiatives, working cross-functionally with design, engineering, and marketing teams to deliver impactful digital products.
- Defined and prioritized product roadmaps and backlogs, aligning development efforts with business goals to increase online sales and customer engagement.
- Transformed e-commerce strategies into actionable product features, using market research, user feedback, and performance data to inform decision-making.
- Leveraged digital marketing insights, including social media and campaign performance metrics, to shape features that optimize brand reach and conversion rates.
- Applied deep understanding of CMS platforms and SEO best practices to guide product enhancements that improve traffic, usability, and content discoverability.
- Stayed ahead of industry trends and emerging technologies, continuously bringing fresh ideas and innovation into the product development process.

Skills: Leadership, PHP, Digital Marketing, MySQL, OpenCart

FULL STACK DEVELOPER · Parker Robinson ·
Freelance (US, FL)

July 2017 - April 2019 · 1 year 10 months

- Designed and developed custom e-commerce websites for the fashion and construction industries, delivering responsive, high performance solutions tailored to sector-specific needs.
- Implemented dynamic content management features, ensuring websites remained up-to-date, engaging, and optimized for user experience.
- Collaborated with marketing teams to integrate social media platforms, supporting brand visibility by aligning web functionality with Facebook page strategies and digital marketing goals.

Skills: Wordpress, MySQL, OpenCart

LEAD FULL STACK ENGINEER · SRL Terentiev
Benefis Art · Chişinău

March 2017 - May 2018 · 1 year 3 months

- Led the development of a full-featured e-commerce and blogging platform tailored for international sales of handmade goods, integrating marketing tools and email campaign functionality to drive user engagement.
- Optimized software performance across the stack, resolving critical bugs, adapting to evolving hardware environments, and improving UI/UX through iterative enhancements.
- Oversaw end-to-end system testing and validation, ensuring high reliability, security, and performance standards were met prior to deployment.
- Directed full lifecycle software development, from architecture and coding to deployment and documentation, ensuring maintainable and scalable solutions.
- Managed and mentored a cross-functional team, aligning engineering efforts with product strategy and business goals while fostering a collaborative, high-performance culture.
- Streamlined internal processes and team operations, improving efficiency, reducing friction, and ensuring timely delivery of features and updates.

Skills: Leadership, Apache, MySQL, PHP, OpenCart
