Frontend Developer (React)

Despre mine

Senior Frontend Engineer with 8+ years of experience building high-load, scalable web applications. Deep expertise in React, TypeScript, frontend architecture, state management and performance optimization. Strong background in gambling, e-commerce and fintech products. Experienced in leading frontend teams, owning architecture, migrating legacy systems and establishing engineering standards. Expanding scope toward Frontend Engineering with focus on architecture, CI/CD, performance, testing and observability.

Experiența profesională

Senior React Developer / Frontend Engineer · Imperial Casino (Gambling) · Chișinău
Septembrie 2022 - Prezent · 3 ani 5 luni

Built high-load UI modules (payments, dashboards, profiles) using React
and TypeScript.
Designed scalable frontend architecture with Zustand and TanStack Query
(caching, optimistic updates).
Integrated real-time data flows via WebSockets.
Implemented secure authentication flows (JWT, refresh tokens, protected
routes).
Improved rendering performance and reduced bundle size by ~35%.
Delivered A/B testing tools and SEO improvements.
Mentored developers and contributed to architectural documentation.

Competențe: TypeScript, ReactJS, JavaScript

Senior React Developer · Outsource projects · Chișinău
Martie 2015 - Iunie 2023 · 8 ani 4 luni

Owned frontend architecture using React, TypeScript, Feature-Sliced

Design and Clean Architecture.

Built complex data layers with REST, GraphQL (Apollo), Axios and WebSockets, including caching and recovery flows.

Led frontend teams (2–5 developers): planning, task decomposition, code

reviews and mentoring.

Delivered reusable design systems and shared component libraries

across multiple products.

Achieved major performance improvements via code splitting, Suspense,

memoization and virtualization.

Set up CI/CD pipelines with GitHub Actions: automated builds, tests,

preview environments and versioning.

Conducted deep audits and migrations: React 16/17 → React 18, Webpack

→ Vite.

Resolved complex production issues: race conditions, rendering

bottlenecks and data synchronization problems.

Competențe: TypeScript, Restful API, ReactJS

Senior React Developer · AGILE PARTNERS SRL · Chișinău

Octombrie 2020 - Februarie 2023 · 2 ani 5 luni

Migrated enterprise modules to React and TypeScript, HubSpot CMS.

Implemented REST and GraphQL data layers using Apollo and Repository

Pattern.

Built shared UI library with Storybook and SCSS.

Introduced CI pipelines, static analysis and automated testing workflows.

Implemented frontend performance monitoring using Web Vitals and

Sentry.

Competențe: Gulp, ReactJS, Hubspot

Frontend Developer (Middle) · Frontend Developer - ATD Technologies · Chișinău

Decembrie 2019 - August 2020 · 9 luni

Developed e-commerce UI features for products with millions of users.

Improved performance and reduced bundle size through systematic

refactoring.

Worked with REST APIs and custom Webpack configurations.

Competențe: ReactJS, Pug, JavaScript

Frontend Developer · Agoya Design · Chișinău
Ianuarie 2018 - Septembrie 2019 · 1 an 9 luni

Developed websites, landing pages and WordPress themes.
Built responsive layouts using SCSS, JavaScript and
npm/Webpack
tooling

Competențe: ReactJS, Gulp, WordPress

Frontend Developer · TIURU SRL · Chișinău
Aprilie 2016 - Ianuarie 2018 · 1 an 10 luni

Developed e-commerce UI features for products with millions of
users.
Improved performance and reduced bundle size through
systematic
refactoring.
Worked with REST APIs and custom Webpack configurations.

Competențe: WordPress, JavaScript, CMS

Frontend Developer · GMStudio · Chișinău
Aprilie 2016 - Ianuarie 2018 · 1 an 10 luni

Developed e-commerce UI features for products with millions of
users.
Improved performance and reduced bundle size through
systematic
refactoring.
Worked with REST APIs and custom Webpack configurations.

Competențe: TypeScript, Webpack, JavaScript
