TOP Competențe

- **Python** · 1 an
- **Sql** · 1 an
- **Rest api** · 1 an
- **Git** · 1 an
- **Gitlab** · 1 an
- **Frontend** · 1 an

Preferințe

- Full-time
- Part-time

Limbi

- **Română** · Comunicare
- **Rusă** · Fluent
- **Engleză** · Comunicare

- 3) Soap UI (including simple groovy scripts like generating the current date in the correct format)
- 4) Autotests (Jmeter + Groovy). Including custom scripts, including creating, modifying, and evaluating variables, working with SQL, working with JSON in groovy, and regex.
- 5) Load (Jmeter + Rest Api/SQL/Kafka). Including non-standard scenarios, for example, sending 2 or more requests with an accuracy of a millisecond, calculating server resource costs during load testing, and more.
- 6) Checking kafka queues
- 7) Evaluation of logs. Viewing and visualization of logs in kibana. Reading and evaluating load test logs directly with python scripts I wrote
- 8) Winscp, PUTTY
- 9) bash, regex (junior)
- 10) python.

Junior QA Specialist · T1 Consalting · Moscova

Martie 2021 - Iulie 2021 · 5 luni

Working with Testit, Swagger, Postman, SoapUI.

Testing new CRM Siebel features, working with Oracle database.
