Tech:

- python3.9
- fastApi
- mongo
- Arq

Code review, sprints, retro and so on

Competențe: Fastapi, Python, Lucrul în Echipă

Software Developer · Railways Research Institute · Moscow

August 2020 - Decembrie 2021 · 1 an 4 luni

Solving integration problems

Building system from scratch

Developing integration module to connect 5+ different systems inside Russian Railways

Mentoring, code review, sprints, retro and so on

Tech:

- python3, tornado
- docker-compose
- CouchDB
- SOAP, REST
- Hyper Ledger Fabric
- git
- linux

Project 2: Dashboards service for Russian Railways

Displaying lots of data that present in RR

Tech:

- clickhouse
- python3, asyncio, aiofile, aiohttp, aioch
- docker-compose
- rabbitmq
- REST
- git

Project 1: Integration module for Russian Railways Solving integration problems Building system from scratch Developing integration module to connect 5+ different systems inside Russian Railways Mentoring, code review, sprints, retro and so on Tech: - python3, tornado - docker-compose - CouchDB - SOAP, REST - Hyper Ledger Fabric - git - linux Project 2: Dashboards service for Russian Railways Displaying lots of data that present in RR Tech: - clickhouse - python3, asyncio, aiofile, aiohttp, aioch - docker-compose - rabbitmq - REST - git - linux

Software Developer · Social lab · Moscow

Noiembrie 2018 - August 2020 · 1 an 10 luni

Back-end python developer in a big project (SOA Decision-

making software, social networks, websites, channels monitoring, scraping data, data import, work with queues, telegram)

stack - python/git/docker/rabbitmq/postgres/tornado

Whole data import cluster responsibility

My responsibility is creating and maintaining service that is providing data for other services in the system

- REST API

- file import

- social networks, websites, telegram chats scraping using self-written crawler+parser

- html/xml parsing

- headless selenium/requests

- producing/consuming messages from queues

This is a remote job with daily stand-ups, weekly planning, scrum and all that good stuff

Lead Specialist · Proekt-Tehnika · Moscow

Septembrie 2013 - Noiembrie 2018 · 5 ani 3 luni

Building virtualised systems

Documentation

Full stack development + system administration

Engineer · Baltic Star · St. Petersburg

Aprilie 2010 - Mai 2013 · 3 ani 1 lună

system administration(Windows, Linux), CCTV administration, backups, information security, VPN, remote access, banking software, joomla websites

Domeniul dorit

- IT, Tech
