UX/UI Designer

Despre mine

My journey in UX/UI design began over ten years ago. Everything started with a harmless hobby for graphic design. During this time, I perfected my style based on minimalism. All the interfaces I create are thoroughly thought through, whereas the aesthetic I do my best to convey is always cool and clean, as you can see in the examples attached. I enjoy discovering new things, keeping the pulse on everything new that's happening in the industry, and I constantly work to improve my design skills and abilities to deliver the best results to my clients.
