Experiența profesională

CTO · Legis · Moscow

Octombrie 2016 - Prezent · 8 ani 10 luni

Responsibilities:

- project management for development of the company's products;
- working with product business metrics;
- market analysis, analysis of competitive products and major trends;
- interaction with stakeholders and project team members;
- elaboration and transformation of the requests.

Implemented projects:

1. The system of filing passes for handling cars:
implementation of the coordination system using Bitrix24;
creation of the mobile app for Android;
optimization for Symfony 4;
development of the project structure, expansion of functionality.
2. The system for monitoring the passage of detours by employees (using NFC and Android):
implementing a pedometer;
implementation of functionality for location tracking;
implementation of the facial recognition system.
3. Testing system for detecting signs of alcohol intoxication (recognition by photo on a smartphone with a connected breathalyzer).
4. Optimization of the property control system for carrying out

inventory using a QR code and NFC tags.
