# Fullstack wordpress developer

## Despre mine

I am an experienced Full-stack web developer with a passion for creating high-quality and user-friendly websites. Currently, I work at Twenty One Development Consulting SRL.

My strengths lie in my ability to work effectively within a team, and I possess various personal qualities that contribute to this, such as determination, adaptability, a strong desire for continuous learning, self-motivation, and patience. These traits have been instrumental in my career growth, where I progressed from being an operator of accounting software to becoming an accountant within the company.

In my previous roles as an assistant at the university and an accountant, I honed valuable soft skills, including an analytical mindset, attention to detail, effective communication, and problem-solving abilities.

Aside from my professional pursuits, I have a keen interest in climbing and alpinism. Participating in republican competitions has not only allowed me to improve my physical skills but has also helped me develop essential qualities such as teamwork, discipline, and goal achievement.

Web development:

API, Bootstrap 5, Web development (HTML5, CSS/SASS, Javascript), JQuery, AJAX, JSON, GitHub, MySQL, VS Code, Git, WordPress, PHP, Software Testing, Figma, Tilda

General:

Microsoft Office, Linux
