Java Developer

Despre mine

Software developer with over 3 years of experience in developing web applications and backend systems. Proficient in writing clean maintainable code with focus on latest best practices and standards. Poses a deep understanding of data structures and algorithms. Actively involved in various stages of project lifecycle from estimation and documentation to testing and maintenance.

Known for collaborative teamwork and a passion for continuous learning.

Skills: Java 8-17 | Spring Framework | gRPC | REST | Hibernate | PostgreSQL | MongoDB | Docker | Kafka | JUnit | JasperReports | Git | AWS | Swagger

Java 8-21 | Spring Framework | REST | gRPC | Hibernate | PostgreSQL | MongoDB | Docker | Kafka | JUnit | JasperReports | Git

Experiența profesională

Software Engineer · Gilat Satellite · Chișinău
Octombrie 2023 - Ianuarie 2024 · 4 luni

Project: preparation for split an existing monolithic app into microservices. Team of 3.

- developed microservices and connected it using gRPC, REST, Kafka;

- used Cloud technologies (AWS) for deploy and manage microservice architecture. Experience with the most common services such as EC2, Beanstalk, Lambda, RDS, SNS, ELB, etc.;

- analyzed an existing documentation and a monolithic app;

- gained experience with Angular, ui-testing (Playwright).

Stack: Java 17, Spring Boot, Jakarta EE, Microservices, PostgreSQL, gRPC, Docker, Kafka.

Java Developer · SIGMA-IT · Saint-Petersburg, Russia
Februarie 2020 - Noiembrie 2022 · 2 ani 10 luni

Project: web app - Unified procurement information system. Team of 18.

- designed and implemented 10 report templates using JasperReports. Reduced time generation process by 25% by optimising SQL-queries;

- implemented functionality for uploading, downloading and parsing Excel documents using Apache POI library. Streamlined data processing, reducing errors by 20%;
- developed a REST API for system dictionaries using SOLID, KISS principles and design patterns;
- contributed to all phases of the project lifecycle, including estimation, implementation, testing, maintenance;
- analyzed requirements from existing documentation, collaborating closely with Analysts and QA team.
Stack: Java 8, Spring Framework, PostgreSQL, QueryDSL, JasperReports, Apache POI.

Studii: Superioare

Baltic State Technical University
Absolvit în: 2015
Facultatea: Machines
Specialitatea: Machines and Technology of Metalworking
