Competențe

- Agile Methodology
- Process Optimization
- Software Design

Python Developer Middle

Despre mine

I am a web developer with 3 years of commercial experience. I specialize in Backend development using Python frameworks and libraries. My skill set includes API development (RESTful, GraphQL, gRPC), testing (Selenium, PyTest, Unittest), database management (SQL/NoSQL), frontend development (HTML, CSS, JavaScript, React), and software systems design. I help companies automate their processes, create innovative solutions and implement MVP for startups

In my free time, I study English, read books, and go hiking.

Experiența profesională

Back-End Developer · Avataa · Chișinău
Septembrie 2024 - Prezent · 10 luni

Competențe: FastAPI, Testing, AWS S3, Docker, Microservices, Kafka, Software Design

Backend Engineer · DataDrive · Chișinău
Iulie 2023 - August 2024 · 1 an 2 luni

Currently I am working at DataDrive on internal business projects. I'm working on an ERP system, within which I implement various modules: a module for managing social networks, a module for automating work with leads, a knowledge base, etc.

I also implemented the server side of a bot designed to answer questions. For this bot, I implemented a search engine to search for similar questions, as well as a system for rating the bot's answers.

Competențe: Python, Odoo, Backend, Software Design, Selenium, English, Django

Web Developer · Upwork · Chișinău
Decembrie 2022 - Iulie 2023 · 8 luni

I have worked with companies on various projects. Implemented an API for calculating the cost and time of delivery, a website

with career routes, a landing page generator and some other projects.

Completed projects:

- Website with career routes

- API for shipping calculations

- Landing page generator

- Admin panel for content management

Competențe: Django, Python, Restful API, Testing, SQL, Docker, English, React, Celery

Python Developer · StatusPraesens · Москва
Februarie 2022 - Martie 2023 · 1 an 1 lună

I was involved in automating various processes (mailing, shortening links with generating QR codes), writing APIs and documentation.

Competențe: Python, Testing, Celery, Web Scraping, Git, GitHub, SQL, Django, DRF

Domeniul dorit

- IT, Tech

Studii: Superioare incomplete

MIPT
Absolvit în: 2022
Facultatea: Faculty of Radio Engineering and Computer Technologies
Specialitatea: Applied mathematics and physics
