Data Engineer, DBA

Despre mine

- Python
- PostgreSQL
- Oracle Database
- PL/SQL
- Amazon S3 , Amazon EC2
- Data Migration
- Git
- Bash
- Apache Airflow
- Docker

Experiența profesională

Data Engineer · Endava, Internship · Chișinău
Septembrie 2023 - Decembrie 2023 · 3 luni

Database Migration from Oracle to Postgres using Kafka Streaming and Debezium Change Data

Capture

- Created and administrated databases in Oracle and Postgres: user control access, from diagram to SQL code, Oracle to Postgres conversion, backup/restore.
- Implemented Bash scripts to export Oracle DB tables into CSV files and copy them to an AWS S3 bucket folder.
- Implemented procedures, functions, views, and triggers in Postgres and Oracle.
- Implemented Python scripts to populate Oracle DB with dummy data, exporting and migrating it from AWS S3 to Postgres.
- Configured, created a Kafka Cluster, and tested its functionality.
- Used Debezium Connector for Oracle and JDBC Sink to create source and sink connectors.

Data Engineer · LSEG Data & Analytics, Freelance · Chișinău

Mai 2023 - August 2023 · 4 luni

Permis de conducere

Categoria: B

- Created an ETL pipeline to provide consistent daily data.
- Used Postman to identify and validate REST APIs endpoints before issuing requests and obtaining JSON-formatted responses.
- Created Python scripts to transform data and store it in a Postgres database.
- Orchestrated and managed execution of workflow operations using Apache Airflow DAGs.

Data Engineer · Freelance · Chişinău

Noiembrie 2022 - Aprilie 2023 · 6 luni

- Developed Python scripts for web scraping, data cleaning, transformation and analysis.
- Created an ETL pipeline and deployed it as a DAG with Airflow in AWS.
- One such project involved web scraping data from the AutoScout24 website to extract vehicle details and save to AWS RDS.

Web Developer · Nova Vita Wellness Centers · Targu-Mures, Romania

Ianuarie 2021 - Octombrie 2021 · 9 luni

- Created a new website for the hospital from scratch using WordPress.
- Maintained the website, including regular backups and updates.
- Offered troubleshooting, plugin customization, and performance optimization.
- Implemented responsive and user-friendly web-pages using HTML, CSS, and JavaScript to enhance website functionality and user experience.

Sql Server Database Administrator · Nova Vita Wellness Centers · Targu-Mures, Romania

Noiembrie 2018 - Februarie 2020 · 1 an 4 luni

- SQL Server 2012
- Reports, creation of new procedures, editing of old ones according to the norms and legislation.
- Optimised workflows as required by the hospital staff.

Studii: Superioare incomplete

Technical University of Cluj-Napoca

Absolvit în: 2018

Facultatea: Automation and Computer Science

Specialitatea: Computers and Informational Technologies
