Truck dispatcher

About me

В данный момент я студент в техническом университете UTM. Так как я довольно ответственно отношусь к учёбе и работе в основном работал только летом, чтобы не создавать помехи и переплетение графиков. На сегодняшний день мой график изменился в более удобную форму, поэтому я могу себе позволить стабильно работать. Я только в октябре вернулся из США, поэтому имею довольно хороший уровень английского.

I am currently a student at UTM technical university. Since I'm pretty responsible with my studies and work, I've mostly only worked during the summer to avoid interference and intertwined schedules. As of today, my schedule has changed into a more convenient form so I can afford to work steadily. I just returned from the US in October, so I have a pretty good level of English.

În prezent sunt student la universitatea tehnică UTM. Din cauza că sunt destul de responsabil cu studiile și munca mea, am lucrat de cele mai multe ori doar în timpul verii, pentru a evita interferențe în grafic. Însă, programul meu s-a schimbat într-o formă mai flexibilă, astfel încât îmi pot permite să lucrez stabil. Tocmai m-am întors din SUA, în octombrie, așa că am un nivel destul de bun de limbă engleză.

Work experience

Design engineer/Инженер-проектировщик/ Inginer-Proiectant · Megavent Clima SRL · Bălți

July 2022 - October 2022 · 4 months
