Web Developer

About me

IT specialist with a strong background in software development and a solid understanding of core programming concepts. Experienced in working with multiple technology stacks and adapting quickly to new tools and frameworks. Completed education in 2024, with hands-on experience gained through academic projects and laboratory work in development, testing, and system modeling. Focused on writing clean, maintainable code and continuously improving technical skills to grow as a developer.

Work experience

Web developer · New hope · Chișinău

December 2025 - January 2026 · 2 months

Full stack web developer
leromenga.info

Skills: Full Stack Development

Intern · University Technical Moldova (UTM) · Chișinău

September 2022 - April 2023 · 8 months

Development and Testing of Websites:

- Performed manual testing of websites for compliance with technical requirements.
- Used Python and Selenium for automating functionality and security tests.
- Worked with PHP and SQL for database integration and testing, and tested APIs for data availability (e.g., products on the site).

Programming and Teamwork:

- Developed simple applications in Python, C, and Java to solve various tasks.
- Participated in team development, using Git for version control.

Graphics and Animation Projects:

- Created interactive graphic projects with animation and physics in J5.js.
- Developed 3D models and scenes in Blender for visualization and prototyping.

- HTML
- JavaScript
- Technical documentation
- Basic automation skills
- Teamwork and version control

Documentation and Reports:

- Developed reports on testing results, including creating and filling in scenario tables.
- Prepared various technical documents, including analytical reports, specifications, and development process documentation.

Skills: Java, JavaScript, HTML, CSS, SQL, PHP, Python, Modeling Technical Documentation, Teamwork, Version Control Basic Automation Skills
