Oracle APEX Developer (OCP)

About me

I am a passionate and dedicated IT professional with a strong background in Oracle technologies, including SQL, PL/SQL, Oracle APEX, and Fusion Middleware. With nearly two years of hands-on experience in software development, I have contributed to several web-based enterprise applications, particularly in domains such as HR, inventory, and database management systems.

I hold a B.Sc. in Botany and a Post Graduate Diploma in ICT, along with a Diploma in Database Design and Development from the IsDB-BISEW IT Scholarship Programme, which laid the foundation for my career in IT.

To further enhance my expertise, I have earned several industry-recognized certifications from Oracle University:

Professional Certificates

- Oracle APEX Cloud Developer Certified Professional — Sep 2023

- Oracle Cloud Infrastructure 2024 Generative AI Certified Professional — May 2024

- Oracle Cloud Infrastructure 2023 Foundations Associate — Sep 2023

- Oracle Cloud Data Management 2023 Foundations Associate — Sep 2023

- Oracle Cloud Infrastructure 2023 Foundations Associate — Expected Sep 2025

I am eager to grow in an international environment, especially in opportunities that combine technical learning with practical experience—such as internships or employment in Germany and beyond. My strengths lie in problem-solving, adaptability, and a consistent desire to learn and apply new technologies. I am currently seeking challenging roles that allow me to expand my knowledge in Oracle technologies, data systems, and modern application development.
