System Administrator

About me

Cybersecurity specialist with strong expertise in SIEM/IDPS systems (Wazuh, Suricata, Snort, Splunk), Linux/Windows administration, and network security. Experienced in both academic and practical environments: implementing security solutions, teaching, and guiding research projects. Skilled in Python scripting and AI model development for anomaly detection. Proactive, detail-oriented, and motivated to bring real value to organizations through technology and security solutions.

Work experience

Lecturer at the Department of Cybersecurity and Information Technology Protection · State University of Intellectual Technologies and Communications · Odesa, Ukraine

August 2023 - June 2025 · 1 year 11 months

- Administered and supported computer labs running Windows and Linux (Ubuntu, CentOS, Kali Linux, Parrot OS), including maintenance and troubleshooting.

- Configured and maintained network equipment: Fortigate, FortiWeb, Aruba routers and switches, emulated Cisco routers and switches on labs.

- Implemented and supported access control systems and integrated information security solutions.

- Set up and managed virtualized environments for labs using Proxmox, VMware and Vbox.

- Developed and maintained technical documentation for systems and network infrastructure.

- Participated in IT infrastructure modernization projects (USAID), equipping labs with up-to-date hardware and security systems.

- Provided end-user support for staff and students, including OS installation, software troubleshooting, and network assistance.

-Delivered practical classes on telecommunications security, networking, and cryptography, focusing on infrastructure administration and security practices.

Skills: Snort, Suricata, Wazuh, IDPS, SIEM, Aruba switches and routers configuration, VLANs, FortiWeb, Fortigate, Updates, Network connectivity assistance, Troubleshooting, Software installation, VirtualBox, VMware, Proxmox, Ubuntu, Parrot OS, Kali Linux, CentOS, Linux, Windows

Secretary of the Department of Cybersecurity and Information Technology Protection · State University of Intellectual Technologies and Communications · Odesa, Ukraine

August 2023 - June 2025 · 1 year 11 months

- Maintained and organized departmental documentation flow, ensuring compliance with institutional and accreditation requirements.

- Prepared and supported technical and accreditation documentation related to IT and cybersecurity programs.

- Assisted in planning and coordinating career guidance and IT-related events for students.

- Supported methodological and organizational processes, including technical reporting and documentation management.

Skills: Event coordination, Compliance & accreditation support, Documentation management

Artificial Intelligence Engineer · ISyb · Odesa, Ukraine

February 2024 - June 2024 · 5 months

- Implemented and configured Wazuh SIEM for enterprise-wide network monitoring and log analysis.

- Deployed and integrated Suricata IDPS with Wazuh to improve incident detection and response capabilities.

- Monitored and analyzed network traffic, identifying anomalies and potential threats.

- Conducted system performance testing and fine-tuning of detection rules.

- Developed and tested anomaly detection models (Random Forest), enhancing Wazuh capabilities for identifying irregular network behavior.

Skills: Machine Learning, Elasticsearch, Suricata, Wazuh SIEM, Python 3

Freelancer · Freelancer · Odesa, Ukraine

June 2019 - June 2022 · 3 years 1 month

- Performed small projects related to the installation and configuration of security monitoring systems (SIEM, IDPS).

- Assisted with technical documentation in the field of IT and cybersecurity.

- Performed Linux server setup and maintenance for small projects.

Skills: IDPS, SIEM, FortiWeb, Fortigate, Linux

Desired industry

- IT, Tech

Education: Higher

State University of Intellectual Technologies and Communications

Graduated in: 2024

Faculty: Information Technology and Cybersecurity

Speciality: Cybersecurity (Master)
