IT Project Manager

About me

Over 3 years of project management experience in e-commerce, fintech, marketing tech, and digital retail.

More than 3 years of experience leading teams of up to 15 people in B2B, B2C, and B2D sectors, with a user base of over 8 million and budgets of up to $300K.

Certified Scrum Master (PSM I), practicing Agile, Scrum, and Kanban. Upper-intermediate English (B2) with experience working in international distributed teams.

Work experience

Technical Project Manager · Brilic Media · Chișinău

March 2024 - Present · 1 year 9 months

Lead end-to-end delivery of web and mobile products — from discovery and specification to launch and continuous iteration. Coordinate cross-functional teams (design, development, QA, marketing) to drive product launches and scale growth across the US, Canada, and Europe.

Achievements

- Delivered 13+ mobile apps and web platforms with a total reach of 8M+ users.

- Built and rolled out an internal CRM system in under 6 months, improving efficiency by 60%.

- Launched 7 AI-integrated products across different verticals (text, music, image, video).

- Implemented A/B onboarding and paywall testing, increasing retention to 18–20%.

- Standardized delivery processes across 3 departments and 25+ employees from scratch.

- Contributed to one app ranking in the Top 3 on the Canadian App Store.

Responsibilities

- Lead full-cycle delivery from requirements to MVP, releases, and post-launch improvements.

- Manage roadmaps, RAID logs, task decomposition, and sprint coordination across multiple products.

- Align designers, developers (iOS, Android, Web), QA, marketing, and analytics teams to drive delivery.

- Create and maintain UX flows, PRDs, and user stories to support fast and clear implementation.

- Budget Tracking

- Administer project infrastructure: Jira, GitHub, Bitrix, Google Admin, Slack, Notion, etc.
- Integrate AI features using APIs (OpenAI, FaceSwap via RapidAPI, Grok, Gemini, Mistral, etc.).
- Coordinate go-to-market initiatives, support CRM ops and outbound automation (Reply.io, Instantly).

Skills: Team Management, Technical Administration, Agile Methodology, Budget Management, Risk Management, Release Management, Stakeholder Management, User Stories, Raid log

IT Project Manager · Unifun · Chișinău
September 2023 - February 2024 · 6 months

Improved and scaled Balance+ — a targeted advertising platform for mobile operators — from UX redesign to cross-country deployment. Led product enhancements, interface optimization, and team coordination.

Achievements

- Implemented the Balance+ admin panel on 8 servers across 8 countries → reduced ad setup time by 23%.
- Created training materials → shortened manager onboarding by 40%.

Responsibilities

- Led documentation and UX design for Balance+, mapping user journeys and building interactive MindMaster diagrams.
- Created Figma-based interface prototypes to streamline ad setup and enhance user experience.
- Conducted A/B testing to optimize features and validate user behavior, improving engagement and flow.
- Coordinated cross-functional improvements, including 8+ optimizations that reduced backend processing time by 30%.
- Designed the "Web Debtors" interface (React-based), improving accessibility for debt management.

Skills: Risk Management, Release Management, Agile Methodology, Technical administration, Team Management, Testing (Software), Creating Prototypes, Termius, Figma, JavaScript
