Front-End Developer

About me

Frontend Developer with 3+ years of experience building responsive, high-performance web applications that drive measurable business results. Skilled in React.js, JavaScript (ES6+), HTML5, and CSS3, with expertise in creating reusable UI components, integrating APIs, and optimising performance. Improved lead capture by 27% through UI enhancements and marketing tool integrations, contributing to shorter sales cycles and increased conversion rates. Experienced in collaborating with cross-functional teams to deliver features that align with business goals and maximise ROI.

Work experience

Front-end Developer · Softline Digital · Peste hotare
March 2023 - October 2024 · 1 year 8 months

- Managed the frontend development lifecycle from task estimation to production deployment, ensuring deadlines were met.
- Coordinated with design, backend, and marketing teams to align UI implementation with business goals.
- Built and maintained responsive, cross-browser React.js interfaces, improving Lighthouse performance scores by 19%.
- Integrated Webflow and Kaiten lead management tools, increasing lead capture by 27% and improving conversion flow.
- Developed and deployed REST API integrations to automate lead processing, reducing manual work by 90%.
- Refactored legacy React codebase into modular, reusable components to improve maintainability.
- Applied state management (Redux, Context API) for scalable feature development.
- Implemented lazy loading, code splitting, and bundle optimisation to reduce initial load time.
- Oversaw integration of marketing tools (analytics, tracking pixels, automation scripts) and verified data accuracy.

Skills: Seo, Jest, Git, Webflow, Zustand, Redux, Typescript, Javascript, ReactJS, Next

Driving licence

Category: B

An outsourcing company specialising in developing websites and web applications for clients across various industries.

- Assisted in building and styling web pages using HTML5, CSS3, and JavaScript for client projects.
- Integrated designs into CMS platforms (WordPress, ProcessWire) to enable easy content management for non-technical users.
- Developed simple interactive UI elements (dropdown menus, sliders, modals) to improve user engagement.
- Optimised HTML structure and image handling for SEO, contributing to a 48% growth in organic traffic for multiple client sites.
- Applied responsive design techniques with Flexbox and CSS Grid to improve mobile usability.
- Performed cross-browser testing to ensure consistent rendering across Chrome, Firefox, Safari, and Edge.
- Supported senior developers with bug fixes, code clean-up, and testing tasks.

Tech stack: JavaScript (ES6), Vue.js basics, CSS3, HTML5, Scss, WordPress, ProcessWire, Git, Responsive Web Design.

Skills: Tailwind, Webpack, Js, Wordpress, Gulp, Css, Html, JavaScript (ES6+)
