Front-End Developer

About me

Frontend-разработчик с более чем 3-летним опытом создания высокопроизводительных веб-приложений. Моя ключевая экспертиза заключается в глубоком знании экосистем React/Next.js и Vue/Nuxt. Имею успешный опыт как разработки продуктов с нуля (MVP), так и глубокого рефакторинга сложных legacy-систем с целью повышения их масштабируемости и производительности.

Помимо фронтенда, обладаю базовыми навыками в Fullstack-разработке (Node.js, Express, MongoDB) и мобильной разработке (React Native), что позволяет мне эффективно взаимодействовать со смежными отделами и понимать проект на уровне архитектуры всей системы. Ценю командную работу, занимаюсь менторством коллег и всегда ориентируюсь на бизнес-результат и Pixel Perfect реализацию

Work experience

Front-End Developer · Freelance · Remote
September 2024 - Present · 1 year 3 months

• Developed websites from scratch to MVP using React/Next.js and Vue/Nuxt

• Fixed bugs and improved existing projects

• Conducted code reviews and optimized frontend solutions

• Created interactive web applications, including touchscreen panels for shopping malls

• Enhanced UX/UI through animations and responsiveness

• Provided consultations on architecture and technology stack

Skills: Frontend Developer

Front-End Developer · SKY LEADER GROUP · Chișinău
June 2023 - September 2024 · 1 year 4 months

• Development of a website for selling airline tickets

- Analysis of project dependencies, replacement of "heavy" libraries with lighter alternatives

- Reduced bundle size, resulting in increased page loading speed

- Implemented custom Lazy Loading to optimize the display of

large lists

- Refactored existing code, unified the code style in the project, significantly improving code

readability and reducing the time employees spend understanding it

- Mentoring colleagues, discussing and analyzing best and worst practices

• Support for websites selling airline tickets

- Integration and support of metrics (Yandex/Google), allowing the company to receive detailed

information about the website and user actions

- Support and configuration of the Jivo online chat

- Development of new components

- Bug fixing, thereby improving user experience

Skills: Git, Vuetify, MUI, Vuex, Redux, TypeScript, Nuxt, Nextjs, Vue, Stack: React

Front-End Developer · Strada · Remote
August 2021 - February 2023 · 1 year 7 months

• Development of a self-education platform

- Mentored colleagues in their work, thereby helping them improve their level of coding and

understanding of code

- Conducted extensive refactoring of components, separating UI from business logic, significantly

improving code performance and scalability

- Worked on fixing the layout, achieving pixel-perfect accuracy, thereby enhancing the website's

visual appeal

Skills: Git, MUI, Redux, Websocket, TypeScript, Nextjs, Stack: React
