Tech. lead and developer web systems · Redox Entertainment and Idol-Studio · Chişinău

Mai 2017 - Decembrie 2017 · 8 luni

My team had an average of 6 people. All new projects (tasks) had to be analyzed, a detailed architecture created, divided into tasks as small as possible. Every morning it started with standUp, check what was done yesterday(code review), make sure that everyone had something to do. Every Friday we held a retrospective where we discussed all the pros and cons of the workflow.
