*Martie 2019 - Noiembrie 2019 · 9 luni*

In this company, I created UI, developed, and debugged web applications. The frontend was writing in HTML / CSS / JS. The Backend was writing in PL / SQL.

Also, I made orders for the same company, but as a freelancer because of my university studies. Developed sites on WordPress.

At the university, I was one of the developers of the Smart Confidential Questionnaire System, which was originally writing in Spring Framework (Java) but then rewritten in Laravel (PHP)
