Frontend developer · EY · Таллинн

Ianuarie 2022 - August 2022 · 8 luni

Took part of updating website - www.ey.com that is used among hundred of thousands. Work process was built on Scrum methodology.

My responsibilities:

- Refactor, rewriting animations with SASS/Bootstrap
- Work within Angular framework
- Closely worked with Authorization & Contact with us parts of website
- Integration backend services in Frontend
- Estimating task's time & possible difficulties
- Prepare substantive reports

Junior Frontend developer · S.A.V. Solutions · Тарту

Decembrie 2020 - Decembrie 2021 · 1 an 1 lună

Tracking app, granted an opportunity to company track their transport facilities in real-time. Work was in Kanban.

App was separated in 2 micro frontends, one with React-TS, second one with Vue.js

My responsibilities:

- Create interfaces, using React & Vue.js, taking care of adaptivity & cross browser compatibility.
- Taking part in team meetings, daily meetings
- Improving some parts of already written interfaces.
- Work with REST API, creating CRUD requests with axios.

React-Frontend:

- Implemented components, styles were written in LESS
- Typed untyped components, functions, wrote interfaces, abstract classes
- A lot of component's & large functions decompositions

Vue-Frontend:

- Integrating backend logic in UI
- Also decomposing a lot of UI parts
- Worked with Google Maps API
