Despre mine

Results-driven Software Developer with a passion for technology, seeking to leverage problem-solving skills and adaptability to new frameworks in a dynamic development team. Dedicated to delivering high-quality, innovative solutions and collaborating effectively with cross-functional teams. My background has shaped my ability to quickly adapt to new work environments, tasks, and build positive relationships with those I work with. I am seeking a reputable company with high regard for teamwork, where my skills and passion will be valued.

Experiența profesională

Front-End Developer (Alpine.js) · ProContext · Chișinău
Decembrie 2023 - Aprilie 2024 · 5 luni

Projects Worked On:

Intranet Website for Mobile Operator UzMobile

- Developed page layout utilizing Alpine.js, TailwindCSS, and Apex Chart.

- Collaborated with the design team to implement responsive and user-friendly interfaces.

- Optimized website performance and loading times, ensuring a smooth user experience.

Admin Webpage for Mobile Operator UzMobile

- Developed frontend utilizing Alpine.js, TailwindCSS, and HTML5.

- Implemented interactive components and dynamic content updates to enhance the functionality of the admin panel.

- Ensured cross-browser compatibility and adherence to web standards.

Support Website for Mobile Operator UzMobile

- Developed frontend utilizing Alpine.js, TailwindCSS, and JQuery.

-Created user-friendly navigation and UI elements to facilitate

customer support interactions.

- Integrated various APIs to fetch and display real-time data and support information.

- Collaborated with backend developers to integrate front-end elements with server-side logic.

- Conducted regular code reviews and implemented best practices to maintain code quality and consistency.

- Participated in agile development processes, including sprint planning and daily stand-ups, to ensure timely project delivery. Provided technical support and troubleshooting for website issues, working closely with the QA team to resolve bugs.

- Continuously updated and refined website features based on user feedback and evolving business requirements.

Competențe: Dezvoltare Software Front-end

Full-stack Developer (Node.js / Next.js / React) · FXBITS · Chișinău
Noiembrie 2022 - Decembrie 2023 · 1 an 1 lună

Projects Worked On:

Play1st.co Gaming Platform

- Developed frontend using Next.js, SCSS, TypeScript, Mantine UI, and SWR.

- Designed and implemented interactive user interfaces, enhancing user experience and engagement.

- Integrated RESTful APIs for real-time data fetching and updating.

Giarte ITX Portal Intranet Website

- Developed the interface using React, TypeScript, i18n, Node.js, TailwindCSS, Headlessui, Lodash, Nivo Charts, React-Hook-Form, Yup, PostgreSQL, and TypeORM.

- Implemented multilingual support using i18n, catering to a diverse user base.

- Developed data visualization features using Nivo Charts to present complex data in an intuitive format.

Epilepsy Monitor Medical Application

- Developed the website using Next.js, TypeScript, Axios, i18next, Zod, Prisma, PostgreSQL, Next-Auth, Material UI, React-Hook-Form, and TailwindCSS.

- Created secure authentication and authorization mechanisms using Next-Auth.

- Integrated with medical databases and APIs to provide accurate patient data and treatment tracking.

- Collaborated with cross-functional teams, including designers, backend developers, and project managers, to deliver cohesive and functional applications.

- Conducted thorough testing and debugging to ensure the reliability and performance of applications.

- Participated in code reviews, providing constructive feedback to maintain high code quality and adherence to best practices.

- Optimized applications for performance, scalability, and security, ensuring they met industry standards.

- Kept up-to-date with the latest trends and advancements in

web development technologies and frameworks.
