Data Analyst

Despre mine

Personal Qualities:

- Analytical Thinker: I excel at breaking down complex problems and finding efficient solutions.
- Team Player: I enjoy working with diverse teams to achieve common goals.
- Adaptable: I am quick to learn new skills and adapt to changing environments and technologies.
- Detail-Oriented: I pay close attention to detail, ensuring high-quality and error-free work.

In my free time, I enjoy exploring new technologies and software, such as Photoshop and video editing and effects programs (After Effects). I am also studying web development, primarily focusing on frontend. Additionally, I have a keen interest in endocrinology, nutrition, biomechanics, and fitness. I love reading both scientific and fiction literature.

Technical Support: Providing technical and user support for internal banking services.

Data Analysis and Scripting: Creating analytical data extractions, writing scripts, and documenting databases and their relationships.

System Administration: Administering systems, granting permissions, and monitoring errors and bugs in web-based applications.

Log Monitoring and Analysis: Monitoring logs through Matomo and the ELK stack, identifying frequent errors, and compiling error statistics.

Active Directory Management: Managing user accounts and permissions in Active Directory.

Troubleshooting: Diagnosing and resolving technical issues.

Bug Reporting.

Basic knowledge of OOP and programming languages:

JavaScript and Python: familiar with the fundamentals of object-oriented programming (OOP)

Basic knowledge of procedural languages:

C Language: understanding the basics of procedural programming, which includes writing functions and procedures to perform operations on data. This helps me effectively handle low-level tasks and system programming.

Confident knowledge of SQL:

Proficiency in SQL, which includes reading, updating, and deleting data in databases. I know how to write complex queries, use aggregate functions, and work with various data types.

Experiența profesională

Information Systems Support Specialist · Cifra-bank / Cifra-broker · Peste hotare

August 2022 - Prezent · 2 ani 11 luni

Technical and User Support for Internal Banking Services

Analytical Data Extractions, Creating Technical Specifications for Extractions, Writing Scripts, Describing Databases and Their Relationships in the Knowledge Base, Documenting Scripts in the Knowledge Base

Administration, Granting Permissions, Monitoring Errors and Bugs in the Web-Based Banking Application

Log Monitoring via Matomo, Identifying Frequent Errors, and Compiling Error Statistics

Working with Logs through the ELK Stack

Active Directory Management

Troubleshooting

Reporting Bugs to Developers and Testers

Personal Achievements:

Developed a Telegram Bot for the HR Team Using Python: Automated business processes for creating accounts in Active Directory, generating secure passwords, creating logins and email addresses, and assigning permissions based on job roles.

Python Scripting for Data Comparison: Although not part of my official duties, I create Python scripts to compare data between analytical extractions to identify discrepancies over different time periods, utilizing the Anaconda library in Python.

System Administrator · SA Advertising Agency · Peste hotare

Februarie 2022 - August 2022 · 7 luni

Installing and configuring software, hardware, and networks.

Monitoring system performance and troubleshooting issues.

Ensuring the security and efficiency of IT infrastructure.

Managing user accounts, permissions, and email systems.

Performing regular data backups and disaster recovery operations.
