Front-End Developer

Despre mine

A web developer with 5+ years of experience specializing in Javascript, Typescript, HTML and CSS. With focus on building fast, scalable applications that are both performant and easy to maintain. Experienced in developing projects of various complexity and optimizing the speed of applications.

Good communication skills, teamwork, responsive, helpful.

Experiența profesională

Full-Stack Developer · Indrivo · Chișinău
Septembrie 2022 - Octombrie 2024 · 2 ani 1 lună

- Developed a React Native application in a cross-functional team of five, including two frontend developers, two backend developers, and one designer, to create a mobile insurance application. Collaborated closely with team members to translate complex insurance workflows and requirements into a user-friendly experience.

- Developed and maintained a comprehensive React template library to standardize and accelerate UI development across the company.

- Optimized performance by creating lightweight, highly reusable components that improved application load times by 20%.

- Introduced Storybook as a tool to support isolated UI component development, enabling developers to build and document components independently of the full application.

- Developed a dynamic booking form module that allowed users to customize and input variable data based on selected options (e.g., date, time, service type), ensuring a tailored and efficient booking experience.

Competențe: MUI, TailwindCSS, Typescript, React, React Native, Node, Storybook, Nextjs

Full-Stack Developer · Creative Soft · Chișinău
Iunie 2021 - August 2022 · 1 an 3 luni

- Implemented bi-directional synchronization, allowing booking updates, cancellations, and modifications made on Airbnb or Booking.com to be reflected automatically on our platform and vice versa, preventing overbookings and ensuring accurate availability.

- Enhanced page load speed by implementing a Content Delivery

Network (CDN), along with techniques like code splitting, lazy loading, and image compression, resulting in a 30% reduction in load times.

Competențe: Vuejs, Node, Nextjs

Front-End Developer · Digital Mall · Chișinău
Iunie 2018 - Noiembrie 2020 · 2 ani 6 luni

- Implement standardized UI components to improve code consistency across projects and enable faster development cycles by providing ready-to-use assets.
- Developed UI for 5 full-featured e-commerce websites with a focus on responsive design, accessibility, and fast load times, providing seamless shopping experiences across devices.

Competențe: React, CSS, HTML5
