Front-End Developer

About me

A young IT specialist with a higher technical education and hands-on experience working on a real-world project. For 6 months, I was part of a development team at a commercial company (under NDA), where I was involved in the development and maintenance of internal web applications based on Oracle APEX using PL/SQL, HTML, and JavaScript. In addition to a solid foundation in web development, I also have experience in programming with C++, Java, and Python. I have a particular focus on front-end development. I have gained experience working with databases (MySQL, Oracle, PL/SQL), which allows me to efficiently collaborate with the back-end.

Desired industry

- IT, Tech

Education: Incomplete higher

USM(Universitatea de Stat din Moldova)

Graduated in: 2025

Faculty: Fizică şi Inginerie

Speciality: IT-specialist
