3D Artist

About me

About me

I have been working in 3D for 3 years, developing a wide range of skills across modeling, texturing, animation, and rendering. My experience includes collaborations with brands such as Bobber, Möwe, and Russian artist Alesha, where I delivered high-quality 3D assets and animations for commercial and artistic projects. I am confident in handling the full pipeline — from creating models based on technical drawings to producing polished final renders and animations. This versatility allows me to adapt quickly to team workflows and contribute effectively to both creative and technical aspects of production.

Key Skills

- 3D Modeling (High-poly & Low-poly)
 - Texturing, UV Mapping & Material Creation
 - Retopology & Optimization for Games/AR/VR
 - Rendering (Cycles, Eevee)
 - Rigging & Animation Basics
 - Substance Painter / Substance Designer
 - Blender / CLO3D / DAZ3D
 - Adobe Photoshop / Illustrator / Nuke
- www.andrewdrutse.art

Desired industry

- Design / Web Design / Graphics

Education: Higher

Saint Petersburg State University of Industrial Technologies and Design

Graduated in: 2024

Faculty: Institute of information technology and automation

Speciality: Standardisation and metrology

👤 24 years
