Dispatcher

Despre mine

I am a highly motivated young man, who wants to work in dispatching industry. I have wide knowledge about geography of the United States, its relief and economic infrastructure.

I am eager to learn quickly and improve my skills required in this domain. Participant of English, Geography and History olympiads. I worked as call center operator – Logistics (Cereals). At that work I answered phone calls and supported clients , helped organize and check cereal shipments for company leaders , gave information and solved problems for customers and learned to work with documents and communication under pressure. I also worked with documents using excel and word programmes . But I must say that I do not have experience in dispatch, but I am ready to study and learn fast. I know about the job from friends who work in this field, and I am interested to grow in the U.S. logistics industry. I am a hardworking person with far going ambitions, and a stable growing career is just vitally important for me . I will be very grateful if you will accept me.
