Full-Stack Developer

About me

Full-Stack Developer with 6 years of experience building and scaling modern web applications.

At iAsig, I design and maintain high-performance, multilingual insurance platforms using Next.js, React, Firebase, and Google Cloud.

I focus on clean architecture, responsive UI, and efficient CI/CD pipelines — transforming complex business logic into seamless user experiences.

I value collaboration, quality, and continuous improvement.

Work experience

Software Engineer · IASIG ONLINE SRL · Chișinău
November 2020 - Present · 5 years 3 months

Developed and maintained the entire iasig.md insurance platform, covering both front-end and back-end functionalities, with integrations across Firebase, Google Cloud, and third-party APIs.

- Built the entire frontend using Next.js / React.js, ensuring strong performance, responsive design, and optimized SEO with Next SEO.

- Implemented backend services using Firebase Cloud Functions, managing business logic and secure integrations with external SOAP and REST APIs.

- Deployed and configured Google Cloud VMs with Nginx, hosting internal REST APIs that communicated securely with external systems such as MConnect, BNM, and RCA-API

- Implemented complex real-time price calculations for various insurance products, optimizing the platform's ability to deliver dynamic pricing based on user input.

- Worked with React Hook Form with Zod validation.

- Developed the multi-language support feature (Russian, Romanian, English).

- Used TypeScript, TailwindCSS, Radix UI, and MUI to deliver a scalable, accessible and maintainable UI.

- Set up CI/CD pipelines using GitHub Actions for automated deployment and build processes, improving development efficiency and reducing manual work.

- Developed a user dashboard for authenticated users to manage insurance policies. Designed interactive data tables using

@tanstack/react-table.
Integrated Firebase Authentication for secure login options (Google, Apple, Email).

- Performed data analysis with BigQuery, creating complex SQL queries for internal analytics, statistics, and reporting dashboards.

- Integrated Facebook Pixel and Google Analytics event tracking.

- Developed automated PDF generation using Puppeteer and PDF-lib, and implemented multi-channel notifications via Slack, Telegram, and Email to keep users informed.

Skills: ReactJS, NextJS, TypeScript, Firebase, Tailwind, MUI, Headless UI, Radix UI, Zod, React Hook Form, Axios, REST APIs, SOAP, Github actions, Google Cloud, Nginx, BigQuery, Google Analytics, Mjml, Git

Full Stack Software Developer · Labs Software SRL · Chișinău
May 2019 - November 2020 · 1 year 7 months

GoTenerife

Developed a cross-platform mobile app using React Native for iOS and Android. Built a web dashboard with ReactJS, integrated Firebase Functions for real-time data, authentication, and notifications, and collaborated with UX/UI and QA teams to ensure a seamless user experience.

Obit

- Developed the profile page for a memorial website, allowing users to create, view, and interact with personalized memorial pages for their loved ones.

- Implemented the Sign-up/Sign-in pages, providing a seamless and secure registration/login experience for users.

- Integrated Firebase Authentication to handle user authentication, enabling secure email/password-based sign-up and login functionality.

- Utilized Apollo GraphQL to optimize communication with the back-end, managing data fetching, mutations, and real-time updates across the application.

Labs42

- Developed the company website.

Skills: ReactJS, MUI, Tailwind, Firebase, React Native, Vue, NuxtJS

Desired industry

- IT, Tech

Education: Higher

42 School, Paris, France
Graduated in: 2019
Speciality: Certification as a Digital Technologies Architect

Moldova State University

Graduated in: 2017

Faculty: Science in Economics

Speciality: Cybernetics and Economics Informatics

Courses, trainings

Complete React Developer (w/ Redux, Hooks, GraphQL)

Graduated in 2025

Organizer: ZTM (Udemy)

100 Days of Code: The Complete Python Pro Bootcamp

Currently studying

Organizer: Dr. Angela Yu (Udemy)
