UI/UX Designer

About me

I'm a UI/UX and Graphic Designer with continuous professional experience since 2020, collaborating with agencies like Seolitte and Sequoia Digital. I specialize in designing intuitive user interfaces, engaging visuals, and cohesive brand identities across web, app, and print platforms.

Two projects I'm particularly proud of include:

Bizonaire – led the full redesign of the website, crafted the complete UI/UX for their app (now live), and redesigned their internal platform, working independently alongside a project manager.

DSCD (Department of Statistics and Community Development, Sharjah – Dubai) – created the full web prototype and design for a government website, collaborating directly with teams in Dubai and managing all communication in English.

I'm passionate about creating meaningful design experiences that combine functionality, clarity, and creativity — always aiming to elevate brands and enhance user satisfaction.

Work experience

UI/UX Designer · Sequoia Digital · Chişinău

January 2023 - Present · 2 years 9 months

- Designed and adapted visuals for Google Ads banners, social media campaigns, and outdoor advertising
- Created brochures, promotional materials, and complete brand identities
- Developed Social Media Marketing (SMM) plans and presented them for client and team approval
- Collaborated closely with the marketing team and clients to maintain brand consistency across all platforms
- Optimized user experience through UI/UX design for websites and applications
- Began learning and actively practicing Adobe After Effects to meet increasing demand for motion graphics and animation
- Delivered numerous projects across diverse industries, including a key milestone: the design and development of a website for a Dubai government department
