IT Director, Team Lead

About me

Results-driven Technology Leader with a strong track record of building high-performance engineering teams and delivering scalable, business-critical systems. As a Team Lead and IT Director, I shaped technical strategy, introduced modern engineering practices, and ensured reliable product delivery in high-load environments.

My expertise spans backend development (PHP, Node.js/NestJS), mobile technologies (Swift/React Native), system architecture, and organizational leadership.

I excel at solving complex problems, driving team growth, and aligning technology initiatives with business priorities to achieve measurable impact.

Work experience

Team Lead → IT Director · Bomba (ICS BM TECHNOTRADE SRL) · Chişinău

August 2025 - Present · 4 months

- Led the IT department (development, administration, analytics, SEO, and content), ensuring stable operation of internal and customer-facing services.

- Defined the company's technical strategy, contributed to business goal setting, and translated them into actionable IT tasks.

- Built and developed the team: hiring, onboarding, role distribution, and employee growth management.

- Oversaw the development of products and internal services: architecture, task prioritization, quality control, and deadlines.

- Ensured system uptime and scalability for high-load environments.
